

Renal physiology and tubulopathies

Director : Gilles Crambert - Deputy Director: Pascal Houillier

Office: D. Haker (TCH CNRS)
common services: C. Doucet (AJT SU)

Homeostasis of K⁺ : regulation and disorders

G. Crambert* (CRCN CNRS)
N. Bouby (DR2 INSERM)
G. Planelles (DR2 INSERM)

C. Walter (80 %IE CNRS)
L. Cheval (90% IR CNRS)*#

Mechanisms of urine concentration and related disorders

N. Tabibzadeh
(MCU-PH Univ Paris)

Homeostasis of NaCl : regulation and disorders

K. Laghmani (CRCN CNRS)
M. Paulais (CRCN INSERM)
G. Crambert* (CRCN CNRS)

S. Demaretz (IE SU)[§]
D. Douaihy (post-doc)
C. Rafael (post-doc)
S. Lasaad (PhD)

Homeostasis of divalent ions : regulation and disorders

P. Houillier (PUPH Univ
Paris)
S. Lourdel (MCU SU)

G. Brideau (80% IR CNRS)*
N. Frachon (80% AI
INSERM)*
L. Cheval (90% IR CNRS)*
C. Griveau (CDD)
C. Prot-Bertoye (post-doc)
I. Sahki (PhD)

Genetic and translational research on tubulopathies

A. Blanchard (MCUPH Univ
Paris)
R. Vargas-Poussou (PH APHP)
S. Baron (MCUPH Univ Paris)

Kidney function investigation facility

P. Houillier (PUPH Univ Paris)

G. Brideau (IR CNRS)*[£]
N. Frachon (80% AI INSERM)*
L. Morla (IE CNRS)
L. Cheval (90% IR CNRS)*#
