October/November 2023

Dear colleagues,

It is our pleasure to announce the **Paris Postdoc Seminars!**

The Paris Postdocs Seminars are organized by Parisian postdocs to give more visibility to our postdoctoral community, to develop connections with scientific peers, and to promote networking and new collaborations. **These seminars will feature Postdoc speakers from different research institutes in Paris to present their work to the entire research community.**

The 2023-2024 seminar series will **start at the end of October**. Talks will be followed by a small group discussion or one-on-one meetings with anyone further interested in the project topic or professional journey of the speaker. If you are interested in meeting the speakers, please reach out to us!
